DE JONG'S PURE-SOLUBLE COCOA THE 'ACME' OF ALL PURE COCOAS, MAKES THE MOST DELICIOUS

HOT OR COLD AND ICED COCOA AND CHOCOLITE. TR. HEHNER, the well-known Public Analyst, reports :- A SAMPLE ODE JONG'S

1) PURE SOLUBLE COUCA having been submitted to me, I have much leasure in stating that I found it to be of ABSOLUTE PURITY and of the HIGHEST EPHLENCE. It surpasses in delicacy of AROMA and RICHNESS of taste the best kinds f similar Cocoas, which have hitherto been offered to the public.

This Cocoa, taken in cold water and without Sugar, is an unfaily remedy or Diarrhees. DE JONG'S COCOA is not only the most inutritions article of fd, but is

easily assimilated by ever so delicate a digestion, and therefore, a git benefit to invalids. DE JONG'S COCOA may be obtained from

The similar law in the Straits Settlements is alleged by those who ought to know to be a very partial success indeed, and the reason why it is not repealed is probably the same as that which has kept the Registration of Servants bill so long upon our local statute book-that is, that it is almost a dead letter. A few days ago several theusands of natives met, it is said by the compulsion of the Government, to sign a document requesting the Government to take prompt and active measures for the expulsion of the Brchbishop and all the fruites. These latter are independent to a great extent of the Government, possessing much property

and extensive capital of their own, which give them great power and influence : too much, in fact, to suit the Government. which likes to have everything in its own hand. Individually the clergy are not liked by tho intives, but as a class they are looked up to and respected almost superstitiously, and there is no doubt that they do possess very great influence in the place in matters social, political and financial. Consequently they are much feared by

the Government whose views are not always their own. Latterly especially, the clergy, fence. headed, of course, by the Archbishop, have shewn very strong disapproval of the severe measures of reform, (which certainly have boon rather brusque and taken with utter disregard to the long-established and certainly backward ideas of the country and people) adopted by the now Director Civil who has been the leading mover of the said reforms. Internal discontent and dissension have long been gaining ground and have culminated in the ill-advised public

meeting before spoken of. The clergy amongst them possess a capital of some millions of dollars which, should they be compelled to leave the place, would lapse to the State, and it is stated that this 27-Table Decorations -- 1, Miss Ethel is the most powerful reason which has urged end of my finger. The soldier did not assist me to find sticks or stones. He never spoke, It was after I had finished throwing the things that he touched my hand. He touched my hand before I reached the Black Rock and it was immediately after passing the Black Rock that he threw me down. I was walking outside the Rock. I am unable to say whether his tunic and belt were undone when he touched my hand, but when he threw me down everything was disarranged as I have described. There may have been time for him to do that between the time he caught me by the waist and the time he threw me down. When I got up from the

I was taken to the Central Station and in an hour or two brought before the Magistrate, being meanwhile put in gaol. Mr Caldwell's clerk, who was present when I was arrested, went for Mr Caldwell. I was put into the large prison got prisoners food. After being before the Magistrate I was sent back to prison for three days, when way again brought before the Magistrate. I was committed for trial at the Supreme Court, where some weeks after I was tried I was marched through the streets chained to several other prisoners. I was tried and sequitted. Mr Francis, instructed by Mr Oaldwell, defended me. My law expenses amounted to about \$4,000. During the time I was in gaol my business suffered greatly. My being imprisoned injured me as regards credit and reputation. It is not true that at the time the fire occurred my business was falling off. It was about the same as usual, perhaps a little duller, business being usually somewhat dull at that season of the year. I was not so rich then

as I had been. I had property in land worth about Tla. 50,000; besides shares in smelting, furnaces in the Sun Ning district worth about Tls. 10.000. I had a half share, of the value of about \$5,000, in business in the Hoi Ping district, and I owned besides two pawn shups and an opium shop. Cross-examined by Mr Ackroyd-The expenses for my defence amounted roughly to about 84,000. The payments were made by my clansmen while I was in gaol and I have not received any account yet. The counts are nearly all settled now, and the capital of \$10,000. The land was bought in 1875. I began business in Man Yuen Tong in 1881, but have been engaged in all sorts scene of his undesirable and unwise exploits. Hospital Lodge He was coming west had suspicions from other sources. The the time of the fire the capital of Man Yuen Reky not to share the same fate.

THE UPPER YANGIZE. The N.-C. Daily News says :- We printed on Monday last a translation of the proclamation issued by the Magistrate of Ichang, announcing that the Kuling was about to ascend the rapids. We have now received from Mr A. J. Little a translation of a contemporaneous proclamation issued by the Taotai of Kingchow, the district next to Ichang. It will be observed that the proclamation distinctly states that it is issued in accordance with instructions re ceived from the Viceroy and the Governor, acting in obedience to a despatch from the Taung li Yamen. In the face of this. Sir. John Walsham's action in prohibiting the departure of the steamer is perfectly it comprehensible. He has, no doubt, been told by Mr Gregory, the Consul at Ichang, that the opposition to be expected from the junkmen and traders would be found an insuperable difficulty; and this shews the folly of sending the oldest and most effets official in the British Consular service to a port like Ichang, where a young, capable and energetic official is urgently required. We hear from Mr Little that while at Ichang, he went up to the 'Ching T'au.' the big rapid which is a portage in very dry winters, and was mobbed by friendly crowds of junkmen and trackers, who asked him, 'When is the steamer coming?' THE CHINA REVIEW. EDHEISHED BI-MONTHLY, TENTH YEAR.

HIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has reached its Fourteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now. gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be mademore generally.

The Review department receives special attention, and endeavours are made to present a careful and concise record Literature on China etc., and to recent works on such topics. Anthors and Publishers are requested to forward works to ! Editor, China Hoviero, care of China

The Notes and Queries are still continued. and form an important means of obtaining from and diffusing among students knowledge ou obscure points.

Original contributions in Chinese, Latin, 276 or any of the Modern Languages are recoived. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Logge, and Messra Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough

mastery of their subject. The Subscription is fixed at \$6.50 per annum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, Manager, China Mail Office.'

'A substantial and reliable Review which all students of China and the Chinese would do well to patronise.'- Chrysauthemum. The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herber Giles on "The New Testament in Chi nese" treats of a question that must neces sarily be of great importance in the eyes of all missionaries. . . Mr E. H Parker's "Short Journeys in Szechuen are continued, and a goodly instalment of

these travels in the interior of China is given. Mr F. H. Balfour contributes paper of some length entitled "The Emperor Chang, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number. -H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review: The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late year upon the investigation of Chinese literature antiquities, and social developments, to as nothing of linguistic studies, has led to th accumulation of important stores of inform ation, rendering some such channel of pul licity as is now provided extremely desir able; and contributions of much interes may fairly be looked or from the members of the foreign consular services, the Chines Customs corps, and the missionary body among whom a high degree of Chines scholarship is now assiduously cultivated and who are severally represented in the firs number of the Review by papers highly creditable to their respective authors plays are marked by both accuracy and fresh ness of style; and an account of the career of the Chinese poet-statesman of the elevently century, Su Tang-p'o, by Mr. E. C. Bowra is not only historically valuable, but is also distinguished by its literary grace. Beside actices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure ita continuanos.
